

**Table 1. Projections of Total Population by Projection Model
New Jersey: 1990 to 2025**

Proejction Model	Census on April 1,		Estimates 2004	Projections to July 1,			
	1990	2000		2009	2014	2020	2025
Economic- Demographic	7,730,188	8,414,350	8,685,166	8,903,300	9,188,200	9,523,500	9,817,400
Zero Migration	7,730,188	8,414,350	8,685,166	8,911,400	9,090,700	9,239,900	9,375,800
Historical Migration	7,730,188	8,414,350	8,685,166	8,949,600	9,216,300	9,395,300	9,550,000
Linear Regression	7,730,188	8,414,350	8,685,166	9,081,326	9,411,342	9,807,360	10,137,376

Note: The Economic-Demographic Model is designated "preferred" due to its greater scope of input information and its consistency with the year 2014 employment projections prepared by the New Jersey Department of Labor. Projections by age, race, sex and Hispanic origin presented in subsequent tables were based on the Economic-Demographic model.
